Estimate of Black Money

1972. SHRI ARANGIL SREEDHARAN: Will the Minister of FINANCE be pleased to state:

(a) what is the latest estimate of black money in the country; and

(b) what steps are being taken to unearth black money and also to punish the hoarders of black money?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI RAMESHWAR THAKUR): (a) The National Institute of Public Finance and Policy, in its study on "Aspects of the Black Economy in India" had estimated the black income generation at 18-21 per cent of Gross Domestic Product (at factory cost) for the year 1983-84. The Government of India have no current estimates of black money in the country.

(b) The Government have been taking administrative, legal and fiscal measure to curb the generation of black money. The policy reform initiated by the Government in the spheres of trade, industry and the financial sectors are expected to control the generation of black money in the country. The marginal tax rate has been brought down and number of tax slabs reduced. With the announcement of the new industrial policy and export-import policy, a number of restrictions and controls have also been removed. The deterrent measures taken by the Income Tax Department include: surveys, operation, search and seizure operations indepth investigation in cases selected for scrutiny; and pre-emptive purchase of properties. It is, however, a very complex problem and all possible measures would be taken by the Government to meet the emerging situations.
